Hi Lily,

Thanks for the update about dust control issues at Hunters Point, and for the invite to join the surprise inspection. I don't need to go, but would like to know how it goes.

Thanks,
Tina

Dear Nina & Tina,

As you know, we got the IVAN complaint about trucks & dust from the Shipyard. I talked to Derek several weeks ago about doing unannounced inspections, and he agreed that's a good idea. I had been meaning to go do that soon. I checked my calendar, and I am pretty open tomorrow. So I just talked with Dick Rodrigues, the BAAQMD inspector. He notices more trucks in the morning, but he has a possible mtg til 11 am, but he thinks that could be a good time to look do an unannounced inspection with him. So I was going to go meet him at the usual guards kiosk then. I am trying to reserve the EPA's Volt, but I haven't gotten confirmation. Are you interested in going too? I can give you a ride from BART/EPA if that helps.

In the mean time, he said he paid extra attention to trucks & dust from Shipyard for several days after we discovered the IVAN complaint. He observed all trucks were covered and he saw no visible dust from the trucks or on the road.

Also, FYI re Candlestick Park, Dick just told me that last week the BAAQMD issued a Notice of Violation to Lennar for not keeping dust wetted down. He didn't know the fine amount. That may not be worked out yet. The report is not yet finalized. But in the mean time, Lennar received it and has improved its practices short term. It's not been formally announced, but if any member of the public asked, the District could say publicly that it has issued this NOV.
